PUB TYPE	Guides - Non-Classroom (055) -- Reference Materials - Directories/Catalogs (132)
EDRS PRICE	MF01/PC03 Plus Postage.
DESCRIPTORS	Consortia; Distance Education; High Schools; Higher Education; *Independent Study; State Universities
IDENTIFIERS	*Idaho

ABSTRACT

This guide to independent study in Idaho begins with introductory information on the following aspects of independent study: the Independent Study in Idaho consortium, student eligibility, special needs, starting dates, registration, costs, textbooks and instructional materials, e-mail and faxing, refunds, choosing a course, time limits, speed grading, the honor code, credit policies, graduate credit, special programs, transcripts, and frequently asked questions. The bulk of the guide consists of a chart organized by academic department and providing descriptions of all independent study college courses. Following these descriptions is basic information on independent study for high school students and a chart describing available high school courses. Enrollment and order forms are also included. (DB)

We Want You To Be Satisfied

We try our level best to make sure that our courses are of the highest quality both in content and instructor. But if you are not satisfied with your course contact us immediately and we'll transfer your registration to another course. If your new course carries a different number of credits, your fees will be adjusted accordingly. We will assess a grading fee for any lessons and/or exams already submitted. You retain original start and end dates when transferring courses.

This catalog is current as of July 1, 2000. While every effort has been made to insure the accuracy of the information in this catalog, Independent Study in Idaho (ISI) reserves the right to change instructors, discontinue courses, change textbooks, and to adjust fees in this catalog as circumstances require, without prior notice.

Students are held responsible for information contained in this catalog. Failure to read and comply with ISI regulations does not exempt the student from this responsibility.

Welcome to Independent Study in Idaho!

What is Independent Study in Idaho?

Independent Study in Idaho (ISI) is a consortium of colleges and universities in Idaho offering undergraduate, graduate, and high school courses for credit through distance learning. We are fully accredited by the Northwest Association of Schools and Colleges, the same body which accredits the University of Idaho (UI), Boise State University (BSU), Lewis-Clark State College (LCSC), Idaho State University (ISU), and North Idaho College (NIC).

We provide educational opportunities for students who wish to begin college programs early, take courses with conflicting times, meet *Prerequisites*, pursue professional development or personal enrichment. Our courses' content and requirements parallel their on-campus counterparts.

Am I Eligible?

Our courses are open to everyone. You don't need to live in Idaho, or be a college student, or have graduated from high school.

Idaho college students must have written permission from their dean and advisor.

Graduate courses have special admission requirements. (see page 3) Taking a course from Independent Study does not mean that you have been admitted to a specific college or university for on-campus study.

I Have Special Needs

ISI is committed to making courses accessible to all students. If you require special accommodation as a result of a certifiable disability, please tell us before you register so that we can meet your needs. Special Needs Coordinator, Jeanne Workman, 208.885.6641 or toll free 877.464.3246

When Can I Start?

You may enroll at any time. ISI has open enrollment and does not follow the academic calendar. Once you've enrolled, you have a full calendar year to complete the course. If you have questions about your course call, e-mail, or fax us. We're here to help.

How Do I Register?

It's easy to register. Just follow these steps.

1. Check the catalog for the course you want.
2. If you need the course for credit toward a degree or certificate, talk to your advisor to make sure that the course will be accepted at your home institution.
3. Fill out the Registration form in the middle of this catalog and mail it to us at:

   Independent Study in Idaho
   University of Idaho
   PO Box 443225
   Moscow ID 83844-3225

- You may register over the phone with Visa, MasterCard, or Discover, by calling 208.885.6641
- or, call toll free at 877.464.3246.
- or, fax us the enrollment form at 208.885.5738

How Much Will I Pay?

The Board of Regents sets our tuition charges. Currently students pay $90.00 per undergraduate credit hour (courses numbered 100-400) and $115.00 per graduate credit hour (numbered 500 and above). We also charge a per-course fee of $25 to cover various costs associated with course production and distribution.

College Course	*1 credit*	*2 credit*	*3 credit*	*4 credit*
Undergraduate (100-400) level	$90.00+$25 $115.00	$180.00+$25 $205.00	$270.00+$25 $295.00	$360.00+$25 $385.00
Graduate (500) level	$115.00+$25 $140.00	$230.00+$25 $255.00	$345.00+$25 $370.00	$460.00+$25 $485.00
First Extension	Six months = $75			
Second Extension	One year = original credit cost of course			

We must have payment in full when you register.

High School courses cost $90.00 per semester course (1/2 unit), plus $60 Administration fee per course, for a total of $150.00
First Extension (six months) is $35: second extension (one year) is the original cost of the course.

There are special handling charges for students outside the U.S.: $21 for Canada and Mexico; $44 for Central and South America, West Indies; and $50 for all other overseas addresses. Independent Study reserves the right to change fees as necessary, or as directed by the Board of Regents.

Textbooks, Study Guides and Videos

The price of your textbooks, study guides and videos are not included in your registration and fees.You must purchase your study guide and video as required, from the University of Idaho Bookstore, or you may order online.

University of Idaho Bookstore
PO Box 444301
Moscow, ID 83844-4301
Phone: 208.885.7334
e-mail: uibooks@uidaho.edu
Fax: 208.885.5953
www.bookstore.uidaho.edu

Textbook, study guide and video refund requests should be addressed to the University of Idaho Bookstore. They will refund your money in full if the texts are returned within 30 days of sale. New Books must be returned in new resaleable condition. After 30 days, the Bookstore may buy them back at half-price, provided they are still in use.

- If textbooks, study guides and videos are not ordered at the time of enrollment, ISI cannot guarantee their availability .
- It is the student's responsibility to obtain the correct edition of the textbook.

E-mail and Faxing

You may fax lessons to our office, as long as your instructor does not object to grading faxes (the printout quality is not always high). Also, our office accepts e-mail at *indepst@uidaho.edu* If you'd like more information, call our office. We **do not** fax or email examinations to or from your proctor. If you need to expedite an exam, you may pre-pay ISI for Federal Express or Express Mail charges to and/or from the proctor and/or from the grader. Please call our office to make these arrangements.

What About Refunds?

College Refund Policy

- All Refunds, will not include the $25 administrative fee and the grading fee per lesson.

- Full Refund, contact ISI within 14 days from the date of enrollment.

- 50% Refund, contact ISI within 15-30 days from the date of enrollment.

- There are NO REFUNDS after 30 days

Is This the Right Course for Me?

If you are not satisfied with a course for any reason, we will happily transfer your registration to another course, (fees will be adjusted if the course has a greater number of credits). However, there is a $6 grading fee per submitted lesson and/or examination fee to cover instructional costs.

ISI is dedicated to help you find the course that's right for you. We can transfer your enrollment up on request.

What Are My Time Limits?

You have one calendar year from your registration date to finish your course. If you don't finish, you may choose to extend your registration by sending us a note requesting an *extension*. The extension fee is $75 for the first (six-month) extension.

If you still need more time after that 18 month period, you may pay full fees minus the $25 administrative fee for college, and receive a one-year extension. After that extension expires, at the end of 30 months, no further extensions are possible.

If you know that you're working under a deadline, tell your instructor as soon as possible. Submitting lessons through email will save time and money. Negotiate a plan that's acceptable to both of you, but remember that our instructors have the right to take ten business days to grade and return material to ISI. Plan on finishing the course at least one month before you need your grade posted, especially in the fall and spring months, when many students are finishing courses.

Students sometimes want to complete a course as quickly as possible. Please plan on taking at least 4 months to finish a course. You'll be doing a full semester's work in each course, and it's not feasible to work much faster. ISI cannot guarantee that you will finish a course within a particular time limit, particularly if it's under four months. Of course, we'll do everything we can to assist you in achieving a timely completion.

Speed Grading Option

For $10 (prepaid), you may request speed grading, with the following conditions:

1. Speed grading may be requested only **after** the student has obtained the instructor's permission.
2. Student must authorize and prepay for overnight shipping of examination or lessons to instructor.

Questions?

Our staff is always happy to answer questions. Please call 208.885.6641 or 877.464.3246 for answers.

Paper Lessons –

Our lesson specialist can help process lessons to and from instructors.

E-mail Lessons –

Our e-mail lesson specialist can process lessons to and from instructors via e-mail.
indepst@uidaho.edu

Examinations –

Our examinations specialist mails examinations to student's proctors; administers in-office testing; and does proctor approval.

Persons qualified to serve as proctors include superintendents, principals, certified librarians, guidance counselors, officials of colleges and universities (such as deans, department chairs, registrars, continuing ed. administrators), staff of a testing center or counseling center; civil service examiners, judges of a court of law, clergy members, and U.S. Armed Forces Education Service officers. Other persons should be approved by the Independent Study office. Relatives may not proctor exams. Call us if you have questions.

Registration -

Our registration specialist can facilitate registrations, refunds, transfers, and special needs students for ISI, and course availability.
We reserve the right to change fees and courses as necessary or as required by the Board of Regents.

The Honor Code

ISI relies on an Honor Code. Dishonesty of any kind with respect to lessons, examinations, official records, or use of the mails, will not be tolerated. We expect students to prepare their own lessons and to submit only their own work. Students may discuss lessons with tutors or other students, but must not use others' work or allow others to use theirs. Examinations must also represent students' own work. Examinations must be completed in the presence of an approved proctor without the assistance of books, notes, devices, or outside help unless permission is explicitly given in the examination directions.

If you violate this Code you forfeit all fees, along with credit for the course. If you assist others in violating this code you will be considered as equally culpable.

Credit Policies at Idaho Colleges and Universities

Students currently registered at University of Idaho, Boise State University, Lewis-Clark State College, Idaho State University and North Idaho College need permission from their advisor and the dean of their college to take an ISI course. The Registration form contains a place for those signatures. Each college and university has its own policy about ISI credits applied toward a degree: talk to your advisor before you register for an ISI course. We cannot guarantee that a specific course will meet any requirement for your on-campus program. Only your advisor knows for sure.

Graduate Credit

Graduate credit is only available through the University of Idaho. If you are a non-matriculated student (not currently enrolled in a UI graduate program) and would like to register in a graduate course, you must have an undergraduate degree from an accredited college or university, a 2.80 cumulative grade point average, and never been refused acceptance into a graduate program. University of Idaho graduate, matriculated students need the program advisor's and dean's signature.

Meeting Professional Needs

K-12 Teachers

Certification and Renewal of Credentials

Independent Study credits may be used for initial certification provided the applicant meets other certification requirements. Credits earned through ISI may be used for the renewal of credentials. Secure the approval of the State Department of Education in the appropriate state before registering. Specific questions about certification or renewal of credentials in Idaho should be made to:
State Department of Education
650 W. State Street• Boise, ID 83720
208.332.6800

Real Estate License

Independent Study in Idaho course in Real Estate Essentials may be used toward obtaining a Real Estate Agent License. The ISI courses Bus C262 (Real Estate Finance) and Bus C263 (Real Estate Law) may be used toward the Broker's license requirements. Check with the Idaho Real Estate Commission, 633 N. 4th Street • Boise, ID 83702, 208.334.3285.

Library Science

Education Media Generalist Certification

Teachers having either a Standard or Advanced Elementary or Standard or Advanced Secondary Certificate may receive the endorsement, which is valid for grades K-12.

Twenty semester credit hours are needed in the general field of educational media or library science. At least 15 of these must be in the areas of selection, organization, and administration of library materials. ISI offers library science courses in each of these specific areas.

If you are seeking an endorsement as an Education Media Generalist through the University of Idaho, contact the Division of Teacher Education University of Idaho at 208.885.6587 and speak with Chene Major for details or email: cmajor@uidaho.edu.

Industrial Technology

Independent Study credits may be used to obtain an endorsement in Technology Education on an Idaho Standard or Advanced Secondary Teachers certificate. Independent Study in Idaho offers all necessary courses for the certification.

Students must successfully complete the following courses to obtain the endorsement: Principles of Technology (ITED C120), Electronics (ITED C130), Power, Energy and Transportation (ITED C218), Construction Technology (ITED C280), Graphic Communication (ITED C360), Computer Operating Systems for Technology (ITED C328), Computer Numerical Control Manufacturing (ITED C380). Additional course work is available.

If you are seeking an endorsement for Technology Education through the University of Idaho, contact the Industrial Technology Department University of Idaho at 208.885.6492 and speak with Jim Cassetto for details or email: cassetto@uidaho.edu.

Independent Study FAQ (Frequently Asked Questions)

Q. Can I use my financial aid to pay for an ISI course?

A. You may use money from a student loan or scholarship (if the terms of the scholarship allow) to pay for an ISI course, because it is an education-related expense. Otherwise, financial aid does not apply to ISI courses. We do not offer any financial aid to students. Please consult your school's Financial Aid office for more specific information. Some agencies, including Vocational Rehabilitation and the Commission for the Blind, offer internal financial aid for qualified students. Please contact those agencies directly for more information. Veterans may use VA benefits for Independent Study courses. Again, you'll need to contact your VA representative directly to make those arrangements or John Sawyer, 208.885.7979, Student Advisory Services.

Q. Do ISI courses count toward my full-time status?

A. No. ISI is not on an academic-year calendar, so our courses are outside the part-time/full-time definition. Your dean and advisor may decide not to allow you to enroll in an independent study course if you are already carrying a heavy course load.

Q. Does ISI charge out of state fees?

A. No. Our charges are the same no matter where you live in the U.S. And our tuition and fees are the same everywhere in the world, but we do add a surcharge for international mail.

Q. How many courses can I take at once?

A. There's no official limit, but we strongly discourage students from taking more than two courses at a time. Talk to your academic advisor, if you're in school, or call our office.

Q. What are graduate fees?

A. Graduate fees apply to courses numbered 500 or higher. **The course number determines what you pay, not your status as a student**. If a course is numbered 100-499, you pay undergraduate fees, and if it's numbered 500-999, you pay graduate fees. See page 3 to see who is eligible to take graduate courses.

Q. What is a self-study lesson (whole or part of a lesson)?

A. Self-study lessons you grade yourself, using an answer key at the end of your study guide. These lessons are not submitted for grading; however, you are responsible for this information which may be used on examinations.

Q. Can I call or email for a test grade?

A. If ISI has a signed FERPA form (aka-Telephone – Email Release of Information form). We can release a test grade either over the phone or via email. (FERPA is Family Education Right To Privacy Act. This is a Federal law protecting students from having grades made public.)

Q. Can I retake an examination if necessary?

A. Retaking an examination is not permitted in ISI courses, unless specified in the course or by the instructor, in which case there is a $15 fee.

Q. Can I finish this course in 1, 2 or 3 months?

A. No. Seriously, due to mail time it is not possible to finish a course in under 4 months.

Q. Can I have a third extension (just a month or two?)

A. The Board of Regents allows us to offer only 2 extensions. Once you've used up your 30 continuous months, there's nothing we can do. You get 12 months to finish, 6 months for first extension, and 12 months for your second extension. You must remain continuously enrolled.

Q. Will this course count toward my degree?

A. If you are transfering your ISI course to another institution to meet undergraduate or graduate requirements for a degree, your home institution will make the decision as to where your course is applicable. There are typically restrictions on whether correspondence courses can be applied to a degree program. Your home institution can clarify these policies.

Q. Can I replace a grade from an on-campus course with an Independent Study course?

A. Each school has a different policy regarding replacing an on-campus course grade. Check with the Registrar to find out if the course you want will be acceptable.

Q. Does my ISI grade affect my GPA?

A. Each institution has a different policy on whether or not ISI grades will affect a GPA. Please check with your institution's Registrar for their policy.

Q. If I don't finish my ISI course, will I get an F on my transcript?

A. If you don't finish the course by your deadline, and don't ask for an extension, we just drop you from the system. The course will not appear on your transcript at all.

Q. Are your credit hours semester or quarter hours?

A. All of our credits are semester hours.

Q. Can I get a degree from ISI?

A. Not yet; we offer courses which may help you complete a degree.

	ITED C218	Power, Energy, and Transportation Technology Systems	Internal-external combustion engines; solar, wind, water, biomass, and nuclear energy; lab experience in generating, transportation, and converting energy forms.	4 UI	10	4					
	ITED C265	Computer-Aided Drafting Design	Application of fundamental principles of computer-aided drafting and design; theory of and skill development in file creation, digitizing, plotting and computer assisted design. ***Computer disk available through UI Bookstore.***	2 UI	15	None		Drawings			
	ITED C280	Construction Technology Systems	Systems approach to building construction technology, including residential, commerical and civil. *Prerequisites*: ITED C140, C170 and a building project. ***Video available through UI Bookstore.***	4 UI	20	None		Model	Yes	✔	
	ITED C328	Computer Operating Systems for Technology	Advance DOS, multitasking and network operating systems, planning and maintenance of computer systems.	4 UI	32	3					
	ITED C360	Communication Technology Systems	Study of communication technology including sub systems of interpersonal human communication between humans and machines. ***Video and computer disk available through UI Bookstore.***	4 UI	10	None			Yes	✔	
	ITED C380	Computer Numerical Control Manufacturing	Overview, advanced computer-aided drafting, computer-aided manufacturing, computer numerical control, and robotics with lab applications.	4 UI	11	None					

Department	Course #	Course Title	Course Description	Credit Hours	# of lessons	# of exams	Self Study	Projects	Special Fees		
	ITED C460	Desktop Publishing	Advanced desktop publication techniques, concepts, and applications through use of computer technology; planning layout and design of publications are highlighted. *Prerequisites*: ITED C111 and BuEd/ITED C415or permission. ***(Computer and special software required.)***	2-3 UI	11-24	None		Drawings			
LANDSCAPE ARCHITECTURE	LArc C389	History of Landscape Architecture	Overview of man and the landscape from the pre-Egyptian civilization through Ancient Greece and Rome, the Middle Ages, the Renaissance, the Oriental, and including contemporary styles and trends. Requires CD-ROM.	3 UI	18	5			CD-ROM		✔
LIBRARY SCIENCE *(see also Education, Adult Education, Vocational Education)* **For more information on Education Media Generalist Certification special program, see pg. 5.**	LibS C419	Computer Applications in Libraries	Trends and developments in library automation; practical applications of microcomputers to library work and administration. NOTE: This is an academic course intended to teach fundamental terms and concepts; it is not a course on automating a library.	3 UI	11	2					✔
	LibS C420	Classification and Cataloging	Organization of library materials, principles of cataloging, subject analysis, classification, bibliographic methods, Dewey decimal system.	4 UI	16	2					
	LibS C421	Acquisitions and Collection Development in Libraries	Evaluation and selection of books and other materials for libraries; analysis of community library needs and interest.	3 UI	15	1					
	LibS422	Use of the School Library	Methods of creating student's interest in the library and using it to the best advantage by identification of library skills needed by K-12 students and methods of teaching those skills.	2 UI	10	1					✔
	LibS C423	Introduction to Reference Work	Reference books in school and public libraries; selecting reference collections.	3 UI	14	2					
	LibS 424	Information Sources on the Internet for Libraries	Principles of development and trends in Internet information resources that libraries access and use; emphasis on searching, evaluating, and providing to patrons needed reference material. **Internet only course.**	3 UI	15	2					✔

Department	Course #	Course Title	Course Description	Credit Hours	# of lessons	# of exams	Self Study	Projects	Special Fees		
	LibS C425	**Organization and Management of Small Libraries**	Organization and management of school libraries.	**4 UI**	**15**	**2**					✔
	LibS C427	**Library and Media Center Practicum**	Experience in a library or other information center under professional supervision. Ninety hours of supervised experience per credit.	**1-3 UI**	**9**	**None**		**Term Paper**			✔
MATHEMATICS	Math C107	**Intermediate Algebra**	Review of algebra including factoring, rational expression, exponents, radicals, quadratic equations, equations of lines. Does not meet core requirements.	**3 UI**	**25**	**5**					
	Math C130	**Finite Mathematics**	Systems of linear equations and inequalities, matrices, linear programming, and probability. *Prerequisites*: 1 year high school algebra and 1 year plane geometry	**3 UI**	**24**	**5**	**10**				
	Math C143	**Pre-Calculus Algebra and Analytic Geometry**	Algebraic, exponential, logarithmic functions; graphs of conics, zeros of polynomials; systems of equations and induction. *Prerequisites*: 1-1/2 years' high school algebra, 1 year high school plane geometry, and sufficiently high score on SAT, ACT, or math placement test; or Math C107 with grade of C or better. To remain enrolled in the course, a student must pass an Algebra Skills Test given within the first three weeks of the course. It is recommended that Math C143 be taken within two years of passing Math C107 or its equivalent.	**3 UI**	**25**	**5**					
	Math C144	**Analytic Trigonometry**	Not open for credit to students who have previous high school or college credit in trigonometry. Trigonometric functions, inverse functions; applications. *Prerequisites*: 2 years high school algebra (or Math 143) and 1 year plane geometry and permission of department. Concurrent enrollment in Math 143 or Math C170 allowed. ***Video available through UI Bookstore***	**2 UI**	**20**	**4**		**Activities**	**Yes**		✔
	Math C160	**Survey of Calculus**	Functions, graphing, derivative, integral, exponential and logarithmic function, functions of several variables. *Prerequisites*: One year high school geometry and one of the following: a) 1-1/2 years high school algebra and sufficiently high score on SAT, ACT or Math Placement Test; b) Math C137; c) Math C143; d) a grade of A or B in Math 107. ***(Supplement, extra fee)***	**4 UI**	**28**	**5**			**Yes**		

Department	Course #	Course Title	Course Description	Credit Hours	# of lessons	# of exams	Self Study	Projects	Special Fees	[ ]	www
[redacted]	Math C170	Analytic geometry and Calculus I	Functions, limits, continuity, differentiation, integration, applications, differentiation and integration of transcendental functions. *Prerequisites*: 2 years high school algebra (or Math C143), 1 year plane geometry, 1/2 year analytic trigonometry, and sufficiently high score on SAT, ACT, and Math Placement Test.	4 UI	30	5		Activities		✔	
	Math C253	Intro to Statistics	Intro to statistical methods including design of statistical studies, basic sampling methods, descriptive statistics, probability and sampling distributions; inference in surveys and experiments, regression, and analysis of variance. *Prerequisites:* math 137 or 143 or 160 or 170 or 2 yrs of high school algebra and permission.	3 ISU	23	3					
MICROBIOLOGY, MOLECULAR BIOLOGY AND BIOCHEMISTRY *(see also Biology)*	MMBB C154	Introductory Biology of Bacteria and Virus	Introduction to microorganisms and their role in disease, health, foods, and the environment; current topics in microbiology.	3 UI	22	3					
MUSIC	MusH C101	Survey of Music	Introduction to the art and nature of music, emphasis on aural skills, historical styles, musical form, and the literature of music. Not open for credit to majors or those who have taken MusC 141.	3 UI	24	2	12				
PHYSICAL EDUCATION	PE/Psych C410	Sports Psychology	Application of the principles and methodologies of psychology to athletics. Topics to be covered include individual philosophies of sport, motivation, personality of coaches and athletes, recreational sports for children, psychological testing, training and learning principles, mind/body relationships, and the effects of anxiety, arousal, and relaxation on performance and current research in the field. ***(Supplement, extra fee)***	3 LCSC	20	2		PST Plan	Yes		
PHILOSOPHY	Phil C103	Ethics	Introduction to philosophical reasoning through historical study of Western moral thought.	3 UI	15	2					
[redacted]	Phil C309	History of Ancient and Medieval Philosophy	Philosophical thought from the early Greeks through the Middle Ages; concentration on metaphysics and theory of knowledge	3 UI	17	2		Final Project			

Department	Course #	Course Title	Course Description	Credit Hours	# of lessons	# of exams	Self Study	Projects	Special Fees
	Phil C310	History of Modern Philosophy	Critical evaluation of the thought of major figures in early modern philosophy, such as Descartes, Leibniz, Spinoza, Locke, Berkeley, Hume, and Kant; emphasis on metaphysics and epistemology.	3 UI	16	2			
PHYSICS	Phys C100	Essentials of Physics	A survey of basic physics principles; motion, gravitation, electricity and magnetism, light, atoms and nuclei. Co-requisite Math 107.	4 ISU	25	4	4		
	Phys C111	General Physics I	Mechanic, sound, and heat.	3 UI	20	4	10		
	Phys C112	General Physics II	Electricity, magnetism, light, and modern physics.	3 UI	23	4	11		
	Phys C152	Descriptive Astronomy	Non-mathematical survey of the historical and modern observation of the sky. Physical relationships in the solar system; planets, satellites, comets, etc., and theories of the creation of the universe and life in the universe.	3 ISU	22	2			
POLITICAL SCIENCE	PolS C101	Introduction to Political Science and American Government	Introduction to the study of politics focusing on basic concepts, processes, and institutions; emphasis on government and the politics of the U.S. examined in comparative perspective; probable topics include nature of constitutional democracy, ideology, parties and elections, and formation of public policy.	3 UI	16	3			
	PolS C102	U.S. Government: Policies and Issues	Survey of major policies and issues conflicts in the U.S.	3 UI	14	3	1		
	PolS C152	Politics and Pollution	Political, government, and administrative aspects of overcoming air, water, and other types of pollution of our environment.	1 UI	9	1		Research Project	
	PolS C275	American State and Local Government	American state and local politics from a comparative perspective; focus on parties, interest groups, voting behavior, legislative and executive government, intergovernmental relations, and public policies.	3 UI	12	2			
	PolS C451	Public Administration	Environment of public administration, politics of organizations, public decision-making, public relations, leadership, personnel administration, financial administration, administration morality, related topics.	3 UI	17	3			

Department	Course #	Course Title	Course Description	Credit Hours	# of lessons	# of exams	Self Study	Projects	Special Fees		
PSYCHOLOGY	Psyc C101	Introduction to Psychology	Introduction to psychology topics, including sensation and perception, learning and thinking, motivation, personality, and adjustment, social processes, psychological testing, emphasis on fundamental principles.	3 UI	13	4	8	Research Project		✔	
	Psyc C101v	Introduction to Psychology	Overview of the science which seeks to understand and explain behavior and mental processing. Introduction to many of the major contemporary theories and concepts in psychology.	3 NIC	7	4			Yes	✔	
	Psyc C300	Statistical Methods	Survey of descriptive and inferential statistical concepts commonly used in treatment of data in social science research; the understanding and application of the concepts will be emphasized. Topics covered will include measures of central tendency, measures of variability, correlation methods and hypothesis testing up through simple analysis of variance. *Prerequisite*: General education core math. ***(Supplement, extra fee)***	3 LCSC	13	3			Yes		
	Psyc C305	Developmental Psychology	Conception to pre-adolescence; genetics, anatomy, physiology, biological changes during development, learning, socialization, cognition, and personality.	3 UI	18	4	9				
	Psyc C309	Personality and Social Development in Children	Personality and social development from birth to adolescence, including areas of attachment, aggression, impulse control, sex differences, development of a sense of self, conscience development, and effects of parental child-rearing styles upon children. *Prerequisites*: Psyc C218, Psyc C305.	3 UI	15	4	5				
	Psyc C310	Psychology of Personality	Theories of personality, basic concepts, techniques of measurement, experimental methods; the normal personality.	3 UI	17	4					
	Psyc C311	Abnormal Psychology	Nature, causes, treatment and prevention of patterns of emotional disturbances and personality disorders, including neuroses and psychoses.	3 UI	17	3	7				
	Psyc C372	Physiological Psychology	Physiological bases of animal and normal human behavior. *Prerequisites*: Biol C201; C202 or permission.	3 UI	20	5	8				
	Psyc C390	Psychology of Learning	Experimental literature of the nature and conditions of classical and operant conditioning, verbal learning, and cognition. *Prerequisites*: Psyc C218.	3 UI	17	5	2	Term Paper			

Department	Course #	Course Title	Course Description	Credit Hours	# of lessons	# of exams	Self Study	Projects	Special Fees
	Psyc C402	**Measurement and Evaluation in Psychology**	Understanding and application of psychology tests and measurements by applying the concepts of validity, reliability, norming, item analysis, and test interpretation in test construction and to the evaluation of standardized tests. *Prerequisites*: Psyc 101 or Psyc 205 or permission of instructor. ***Call ISI for availability***	3 LCSC	17	3			
	PE/Psych C410	**Sports Psychology**	Application of the principles and methodologies of psychology to sports and athletics. Topics to be covered include individual philosophies of sport, motivation, personality of coaches and athletes, recreational sports for children, psychological testing, training and learning principles, mind/body relationships, and the effects of anxiety, arousal, and relaxation on performance and current research in the field. ***(Supplement, extra fee)***	3 LCSC	20	2		Term Paper	Yes
	Psyc C415	**History and Systems of Psychology**	History of psychology as a field of scientific inquiry; overview of development of schools of thought, prominent figures and key theories. *Prerequisites*: Two upper division level Psych courses.	3 UI	21	3	10		
	Psyc C456	**Psychology of Emotion**	Theories of emotion; biological and social variables influencing the activation of emotion.	3 UI	14	3	6		
	Psyc C496	**Applied Behavior Analysis**	Analysis and assessment of behavior in real-life settings, e.g. home, business, industry, and institutions such as prisons and psychiatric hospitals; structured programs of intervention and assessment of behavior change, special emphasis on self-management of behavior. *Prerequisite*: Psyc 218 and Psyc 390.	3 UI	16	5	2	Term Paper	
REAL ESTATE *(see also Business, Economics)*	Finan C201	**Fundamentals of Real Estate**	Essentials of real estate practice: listings, sales, financing, land descriptions, investments, brokerage, advertising, market analysis, and fundamentals arising from real estate transactions. This course has been approved by the Idaho Real Estate Commission and is considered the equivalent of "Real Estate Essentials," and partially meets the education requirements for the Real Estate Sales Associate's license.	3 BSU	21	3	8		

Department	Course #	Course Title	Course Description	Credit Hours	# of lessons	# of exams	Self Study	Projects	Special Fees

Independent Study for High School Students

Am I Eligible?

If you are currently a high school student, you'll need your school official's permission; s/he should sign your enrollment form. If you're not currently enrolled in a high school, you may simply register for a course. If you want the course to count toward a high school diploma, you must have written permission from a high school official; ISI does not grant diplomas. Taking a course from Independent Study does not mean that you have been admitted to a specific college or university for on-campus study.

How Much Will I Pay?

High school courses cost $90 per semester course plus $60adminstrative fee per course. Your first extension (6 months) is $35; your second extension (1 year) is $90.

There are special handling charges for students outside the U.S. mailing costs: $21 for Canada and Mexico; $44 for Central and South America, West Indies, and $50 for all other overseas addresses.

We must have payment in full when you register.

Textbooks/ Study Guides

The price of your textbook and study guides are not included in your registration and fees. You may buy your books from:
University of Idaho Bookstore:
PO Box 444301
Moscow ID 83844-4301
Phone: 208.885.7334.
FAX: 208.885.5953.
e-mail: uibooks@uidaho.edu
www.bookstore.uidaho.edu

What About Refunds?

High School Refund Policy

All refunds will not include $30 of the Administration fee and grading fee per lesson.

- Full Refund, contact ISI within 14 days from date of enrollment.
- 50% Refund, contact ISI within 15-30 days from date of enrollment.
- There are NO REFUNDS after 30 days

Textbook refund requests should be addressed to the University of Idaho Bookstore. They will refund your money in full if the text is returned within 30 days of sale. After 30 days, the bookstore will buy them back at half-price, provided they are still in use.

If you are not satisfied with a course for any reason, we will happily transfer your registration to another equal-credit course, free of charge if no lessons have been submitted, no questions asked. If you have submitted lessons, we will assess a $6 fee per lesson to cover instructional costs.

Note:
Refunds must be made to the person who made the payment. Your refund will be made in the same way you paid; we can't credit your Visa if you paid by check, for example.

When Can I Start?

You may enroll at any time. ISI does not follow the academic calendar, so you start and finish at your own rate. Once you've enrolled, you have a full calendar year to complete the course.

How Do I Register?

It's easy to register by following these steps.
1. Check the catalog.
2. Fill out the High School Registration form, get your school official's signature where applicable, and mail it to us at:

Independent Study in Idaho
University of Idaho
PO Box 443225
Moscow ID 83844-3225
Phone: 208.885.6641
Fax: 208.885.5738
e-mail: indepst@uidaho.edu

If you'd like to use Visa, MasterCard, or Discover, you may register over the phone by calling 208.885.6641, **or faxing us your Registration form at 208.885.5738.**

Of course, if you have questions at any stage of the process, call the ISI office.

What Are My Time Limits?

You have one calendar year from your registration to finish your courses. If you don't finish, you may choose to extend your enrollment by sending us a note requesting an extension. The extension fee is $35 for the first six-month extension.

If you still need more time after that 18-month period, you pay full fees again and receive a one-year extension. After that extension expires, at the end of 30 months, no further extensions are possible.

Speed Grading Option?

You may request speed grading. For an additional $10 (prepaid) and with the following conditions:

1. Request only **after** you have obtained the instructor's permission.
2. Authorize and prepay for overnight shipping of examination to instructor.
3. Apply **only** to final examination or final lesson, in cases where the course has no final examination.

If you know that you're working under a deadline, tell your instructor as soon as possible. Negotiate a plan that's acceptable to both of you, but remember that ISI instructors have the right to take ten working days to return your lessons/ exams to the ISI office. Plan on finishing the course at least one month before you need your grade posted. The fall and spring months are particularly busy as so many students are finishing courses.

Students sometimes want to complete a course as quickly as possible. Please plan on taking at lest 4 months to finish a class. You'll be doing a full semester's work in each course, and it's not feasible to work much faster than that. ISI cannot guarantee that you will finish a course within a particular time limit, particularly if it's less than four months. Of course, we'll do everything we can to assist you in a timely completion.

IMPORTANT!

All lessons and exams MUST BE RECEIVED by the ISI office ONE MONTH prior to your graduation deadline. It is your responsibility to contact the UI registrar s office to request an official transcript to be mailed to your high school.

Department	Course #	Course Title	Course Description	Credit Hours	# of lessons	# of exams	Self Study	Projects	Special Fees		
CONSUMER ECONOMICS		Consumer Economics I	Basic consumer economics for individual use, specifically adapted to the secondary student.		16	4	8

English 9 I and II
English 10 I and II
English 11 I and II
English 12 I and II
General Math I and II
Geometry I and II
Health Education
State and Local Government H
World History I and II

Professional Opportunities

Library Science:
Eight courses

- helps teachers obtain University of Idaho endorsement as Education Media Generalists.
- helps prepare library employees to better serve their libraries and communities.

Real Estate:
Three courses

- helps meet the education requirements for the real estate sales associate license.
- provides courses approved by the Idaho Real Estate Commission.

Counseling:
Two courses

- meets the needs of student in outlying areas who seek admission to the UI's Master's in Counseling program.
- offers two courses in aspects of rehabilitation.
